## MINING MARKET REMAINS DULL

An Almost Inactive Summer is Expected by Brokers.

MANY WILL TAKE VACATION

Daly-West Continues to be the Feature-Sunshine, Century and Carisa Partilepated.

A summer of almost unprecedented Inactivity and duliness in Utah mining stocks is expected by many of the brokers and not a few are now preparing to take extended vacation trips. In speaking of the very evident lack of interest on the part of the public in mining stocks a well known broker said this morning: "The business transacted on the board is by no means as large as the daily totals would lead one to believe. If one in every five transactions recorded is an out and out deal in which some money and stock changes hands I'll miss my guess. Very few people are investing in mining stocks at present, and yet now is the time to buy almost any of those listed on the exchange. I think the summer will be an extremely dull one but if there is any startling news concerning any one property brought to light it is almost a certainty that many stocks will boom."

This morning transactions involving 16,625 shares and over \$13,924 were re-corded and as was the case yesterday Daly-West was the feature. At prices between \$45.30 and \$45.40 sales of no less than \$25 shares were made.

Con. Mercur was dealt in at \$1.94 and Sunshine, Sacramento, South Swansea and Century participated in the day's business. The session closed with the following quotations and transactions recorded:

Report that Dr. Franklin is Out of Franklin Syndicate,

some time it has been rumored that Dr. Franklin is no longer interested in the Yankee and other Franklin syndicate properties, but until to-day the information released was not of a definite character. The big tunnel will very greatreduce the expense of handling the immense volume of ore now exposed in the Lulu territory and much credit is due to Arthur H. Brown, the company's surveyor and engineer who planned the tunnel. So perfect were the calculations that the tunnel which was worked from both ends was within a few inches of being absolutely in line when the connection was made. Manager Dern is very happy that the tun-nel, which was projected by himself while assistant manager, is completed.

BOY IS MISSING.

Thirteen Year-Old John Blakemore Has Been Away from Home 3 Days.

John Blakemore, a 13-year-old boy living at 521 south, Fifth West street, has mysteriously disappeared from home. He has been gone three days. and no trace of him has been found, though searching parties have scoured the city. His mother has no fear of foul play, but she is considerably worried about the absence of her boy. His playmates suggest that most likely he went away voluntarily, actuated by a desire to see the world.

Saturday morning was the last time that the boy was home. He played around the lot in his usual way most of the morning, and then joining a crowd of boys who live in the neighbor-hood, he left the house. That was the last seen of him, and none of the boys with whom he was playing knows any. thing about when or when he left them. A search was instituted but no trace

Mrs. Blakemore last night reported the matter to the police, giving a description of the missing boy. He is only 13 years old, with a light complexion and wearing a suit of dark clothes. He would be readily recognized by the fact that the middle finger on his right
